

# **Grant All-Detail Report Projects and Practices 2018**

**Grant Title -** Lower Sand Creek Corridor Restoration **Grant ID -** C18-7062 **Organization -** Coon Creek WD

Original Awarded Amount	\$195,158.00	Grant Execution Date	3/14/2018
Required Match Amount	\$48,789.50	Original Grant End Date	12/31/2020
Required Match %	25%	Grant Day To Day Contact	
<b>Current Awarded Amount</b>	\$195,158.00	Current End Date	12/31/2020

#### **Budget Summary**

	Budgeted	Spent	Balance Remaining*
Total Grant Amount	\$195,158.00	\$176,427.70	\$18,730.30
Total Match Amount	\$269,563.00	\$248,332.65	\$21,230.35
Total Other Funds	\$269,563.00	\$248,332.66	\$21,230.34
Total	\$734,284.00	\$673,093.01	\$61,190.99

<sup>\*</sup>Grant balance remaining is the difference between the Awarded Amount and the Spent Amount. Other values compare budgeted and spent amounts.

### **Grant Activity**

Grant Activity - Administration	& Reporting
Description	Project coordination meetings with partners, project management (bid process, contracts, oversight), financial tracking, eLink reporting.
	This activity will be carried out by CCWD staff. The CCWD maintains a full-time staff and District Engineer with expertise in multiple-use resource management, hydrology, aquatic biology, outreach/education, and environmental regulations. CCWD staff has extensive experience working on stream restoration projects.
	Specifically, Justine Dauphinais, Water Quality Coordinator (B. A. Environmental Studies, M. Sc. Fisheries & Aquatic Biology), is responsible for day-to-day project management and grant reporting with administrative oversight by Tim Kelly, District Administrator. Jon Janke, Operations and Maintenance Coordinator (B. S. Natural Resource Management), is responsible for construction management in conjunction with the District Engineer, Ed Matthiesen (See Technical/Engineering Assistance Activity).
Category	ADMINISTRATION/COORDINATION
Start Date	9-Apr-18 End Date
Has Rates and Hours?	Yes
Actual Results	CCWD is providing ongoing coordination with project partners and local landowners, construction management, and grant administration and reporting.

Report created on:2/19/20 Page 4 of 11

Grant Activity - Construction			
Description	This activity includes construction site prepar stabilization structures and bank stabilization connections, tree-thinning, buckthorn clearin equipment, and post-construction vegetation.  See attached 60% design plans for details  All work will be completed by 1 or more qualicationally, the Anoka Conservation District	protection BMPs, regrading of streambars, seeding and planting as needed, site reambars, seeding and planting as needed, site reambars maintenance to ensure successful established contractors selected using a compet	anks, excavating backwater pool estoration, demobilization of lishment.
Category	STREAMBANK OR SHORELINE PROTECTION	•	
Start Date	1-Oct-18	End Date	
Has Rates and Hours?	No		
Actual Results	As of 12/31/19, all construction activities are species control work throughout the project a		buckthorn and herbaceous invasive

Activity Action - Cross vanes				
Practice	410 - Grade Stabilization Structure	Count of Activities	6	
Description	6 rock vanes positioned every 2 ft of	6 rock vanes positioned every 2 ft of vertical drop		
Proposed Size / Units	6.00 COUNT	Lifespan	25 Years	
Actual Size/Units	6.00 COUNT	Installed Date	28-Dec-18	
Mapped Activities	No			

Report created on:2/19/20 Page **5** of **11** 

Activity Action - Tree and brush thinning					
Practice	314 - Brush Management	Count of Activities	1		
Description	Approximately 50% cut of undesirab	Approximately 50% cut of undesirable secondary growth trees to open canopy to allow for sunlight penetration.			
	Clearing of all invasive buckthorn. Area to be thinned is within 50 ft of channel along the entire project reach.				
	The logs and roots of thinned trees v	vill be repurposed in the channel as log toes	and root wads.		
Proposed Size / Units	3.20 AC	Lifespan	Unknown		
Actual Size/Units	3.50 AC	Installed Date	28-Dec-18		
Mapped Activities	No				

Activity Action - Riparian vegetation establishment				
Practice	390 - Riparian Herbaceous Cover	Count of Activities	1	
Description	Although vegetation is expected to establish naturally once the canopy in thinned to promote sunlight			
	penetration, supplemental seeding v	vith a native plant seed mix will be conducted	d as needed following BWSR's	
	native plant establishment and enha	ncement guidelines (May 2007).		
Proposed Size / Units	3.20 AC	Lifespan	15 Years	
Actual Size/Units	3.20 AC	Installed Date	30-Sep-19	
Mapped Activities	No			

Activity Action - Riprap gullies at outfalls					
Practice	468 - Lined Waterway or Outlet	Count of Activities	5		
Description	There are 5 stormwater outfalls within the project reach that are currently unprotected and are contributing to				
	in-channel erosion during storm eve	in-channel erosion during storm events. These will be lined with fabric and roughly 200 CY of riprap			
Proposed Size / Units	5.00 COUNT	Lifespan	15 Years		
Actual Size/Units	5.00 COUNT	Installed Date	28-Dec-18		
Mapped Activities	No				

Report created on:2/19/20 Page 6 of 11

	Practice		580 - Streambank and Shoreline	Count	f Activities		1
	Practice			Count o	f Activities		1
			Protection				
	Description		Actively eroding stream banks will be	e stabilize	d using a combination of hard	d-armo	oring and bioengineering
			practices.				
			Severely eroded banks that are subje	ect to high	n shear stress will be stabilize	d with	vegetated riprap (roughly
			1500 LF). Banks subject to moderate shear stress will be stabilized using bioengineering practices including root				
			wads, log toes, and woody revetmer	nts (rough	ly 1600 LF). Roughly 1100 LF	of ero	ding banks will be regarded to
			a shallower slope and vegetated wit	h native p	lants. 16 individual banks for	a tota	l of 4200ft along a 1/2 mile
			stream corridor.				
	Proposed Size	/ Units	4,200.00 LINEAR FEET	Lifespan		15 Years	
	Actual Size/U	nits	4,200.00 LINEAR FEET	Installe	d Date		28-Dec-18
	Mapped Activ	vities	No

Activity Action - Stabilize eroding banks

Activity Action - Planting mid canopy trees				
Practice	612 - Tree/Shrub Establishment	Count of Activities	1	
Description	6 species of native trees (84 trees; #10-15 pots) were planted along the stream corridor to replace the mid story			
	that was previously composed of invasive buckthorn			
Proposed Size / Units	60.00 COUNT	Lifespan	25 Years	
Actual Size/Units	84.00 COUNT	Installed Date	15-Oct-19	
Mapped Activities	No			

Report created on:2/19/20 Page **7** of **11** 

Activity Action - Invasive Species Control				
Practice	643 - Restoration and	Count of Activities	1	
	Management of Declining Habitats			
Description	Follow-up buckthorn control to prevent re-establishment in disturbed area. Control of additional opportunistic			
	herbaceous invaders such as garlic mustard as well.			
Proposed Size / Units	3.20 AC	Lifespan	Unknown	
Actual Size/Units	5.00 AC	Installed Date		
Mapped Activities	No			

Grant Activity - Public In	nvolvement, Education, & Outreach				
Description	public open house to discuss legather feedback. Project updated Additionally, interpretive signated the project reach and inform the macroinvertebrates. The CCW showcase the project and discussion of the project reach and information of the project reach and information of the project reach and information of the project reach and discussion of the project a	ocal stream impairments and introduce a stes will be published in the City of Coon Rage will be designed and installed to draw trail users about how the various BMPs im D will also host one or more "Watershed cuss its water quality outcomes."  It by CCWD staff. The CCWD maintains a function to be present, hydrology, aquatic biology, outreast erience working on stream restoration proformation & Education Coordinator (B. S.	Biology, M. S. Liberal Studies), will oversee all public tant (B. A. Environmental Studies). A contractor will

Actual Results	quarterly newsletter, establish		olished 4 articles in the Coon Rapids Connection v.cooncreekwd.org/lowersandcreekresto., hosted 2 the project site.		

Report created on:2/19/20 Page 8 of 11

Activity Action - Public open house workshop					
Practice	104M - Workshop/Clinics	Count of Activities	1		
Description	Host public open house to promote project and gather feedback. Before construction begins, the CCWD and				
	City of Coon Rapids will host a public open house to inform residents about the project and allow for questions,				
	comments, and discussion.				
Proposed Size / Units	1.00 COUNT	Lifespan	Unknown		
Actual Size/Units	1.00 COUNT	Installed Date	22-May-18		
Mapped Activities	No				

Activity Action - Interpretive signage					
Practice	101M - Staff Time	Count of Activities	1		
Description	CCWD staff will develop content and a design for interpretive signage that will be installed along the project				
	reach to educate trail users on the project.				
Proposed Size / Units	1.00 COUNT	Lifespan	15 Years		
Actual Size/Units	1.00 COUNT Installed Date 15-Nov-19				
Mapped Activities	No				

Activity Action - Publish regular project updates					
Practice	101M - Staff Time	Count of Activities	2		
Description	CCWD staff will write and submit at	CCWD staff will write and submit at least 2 project updates to the Coon Rapids Connection, a quarterly			
	newsletter circulated to all Coon Rapids households and businesses (>26,000 people). CCWD staff will also post				
	regular project updates to the CCWD website.				
Proposed Size / Units	2.00 COUNT	Lifespan	Unknown		
Actual Size/Units	4.00 COUNT	Installed Date	1-Sep-19		
Mapped Activities	No				

Report created on:2/19/20 Page **9** of **11** 

Activity Action - Public outreach event					
Practice	104M - Workshop/Clinics	Count of Activities	1		
Description	CCWD staff will host at least one pub	CCWD staff will host at least one public outreach activity to showcase the finished project & interpretive			
	signage. Interested stakeholders including residents, senior groups, youth groups, and local agencies will be				
	invited to participate in a 'watershed walk' tour which will showcase the project site and educate participants				
	on the new water quality and stream habitat BMPs.				
Proposed Size / Units	1.00 COUNT	Lifespan	Unknown		
Actual Size/Units	2.00 COUNT Installed Date 18-Sep-19				
Mapped Activities	No				

Grant Activity - Technical & Engineering Assistance					
Description	complete final project design process, and provide constru Ed Mattheisen, P. E., a licens	The District Engineer, Wenck, will provide technical and engineering assistance throughout the Project. The Engineer will complete final project design plans, assist with securing necessary permits (USACE, DNR Waters), implement the bidding process, and provide construction oversight (supervision and inspections).  Ed Mattheisen, P. E., a licensed professional, will be the lead Engineer and will adhere to recognized design standards for all constructed practices (USDA-NRCS FOTG).			
Category	TECHNICAL/ENGINEERING AS	TECHNICAL/ENGINEERING ASSISTANCE			
Start Date	9-Apr-18	End Date	31-Dec-19		
Has Rates and Hours?	No	No			
Actual Results		Wenck Engineering has completed survey work & final design plans, construction bidding services, construction oversight, and final project sign off. No additional technical assistance is needed.
