COON CREEK WATERSHED DISTRICT
Request for Board Action

MEETING DATE: June 10, 2013
AGENDA NUMBER: 11
ITEM: Spring Lake Park Local Surface Water Management Plan Updates

POLICY IMPACT: Policy
FISCAL IMPACT: Budgeted

REQUEST
Review and approval of Updated Spring Lake Park Local Surface Water Management Plan (LSWMP). LSWPM dated April 2013, received April 22, 2013.

BACKGROUND
In 1955, the Minnesota State Legislature established the Watershed Act. This act provided the means to create watershed districts, special purpose units of local government with broad authority to regulate land use planning, flood control and conservation issues.

In 1982, the legislature approved the Metropolitan Surface Water Management Act, chapter 103B of Minnesota Statutes. This act requires all metro-area local governments to address surface water management through participation in a Watershed Management Organization (WMO).

On December 14, 2011 The Coon Creek Watershed District acquired additional areas formerly known as the Six Cities Water Management Organization. These areas included portions of the City of Spring Lake Park.

ISSUES/CONCERNS
1. The LSWMP references TP-40 for rainfall depths.
   a. It is referenced that these numbers will be updated as necessary.
2. CCWD comprehensive plan (In draft form) are adopted by reference.
   a. The plan states that final CCWD Comprehensive plan will also be adopted by reference once approved.
3. CCWD rules (Dated March 9, 2009) are reflected in the LSWMP and located in Appendix B.

RECOMMENDATION
1. Approve Spring Lake Park Surface Water Management Plan.
