COON CREEK WATERSHED DISTRICT
Request for Board Action

MEETING DATE:       June 11, 2018
AGENDA NUMBER:      12
ITEM:               Public Workshop on Stormwater Pollution Prevention Plan

POLICY IMPACT:      Policy
FISCAL IMPACT:      Budgeted

REQUEST
Hold public meeting to review District performance in stormwater and comprehensive water management.

Receive comments from the public.

BACKGROUND
In 2003 the Coon Creek Watershed District was designated a Special Municipal Separate Storm Sewer System (MS4) by the Pollution Control Agency because of its responsibilities relating to the public ditch system and their role in conveying stormwater. As an MS4 the District is required to complete a Storm Water Pollution Prevention Plan (SWPPP).

In December, 2013 the Board of Managers approved the second NPDES Phase II Permit Application and Storm Water Pollution Prevention Plan (SWPPP).

The current Federal Permit (MNR040000) is held by the Minnesota Pollution Control Agency, was approved August 1, 2013 and expires July 31, 2018. The current NPDES permit requires the District to advertise and conduct an annual public meeting to review the SWPPP. It also requires the submittal of an Annual Report to PCA by June 30 of each year.

 ISSUES/CONCERNS
1. **Public Meeting Notice:** Notice of the Public Workshop was posted in the official newspapers of the District May 11, 18, 25 and June 1, 2018 for the Anoka County Union-Herald and Columbia-Hts-Fridley Sun-Focus, and on the CCWD website since May 10th, 2018.

2. **Agenda:** Below is an agenda for the review. The agenda is accompanied by a presentation by staff.
   1. Background – MS4 Designation
   2. Resource Condition
   3. Program Activities (Minimum Control Measures)
      a. Public Education and Outreach
b. Public Participation/Involvement

c. Illicit Discharge Detection and Elimination

d. Construction Site Runoff Control

e. Post-Construction Runoff Control

f. Pollution Prevention/Good Housekeeping

**RECOMMENDATION**

1. Hold public meeting to review District performance in stormwater and comprehensive water management.

2. Receive comments from the public.
