

Hire Certified Contractors!

The Certification

The Minnesota Pollution Control Agency offers certifications for contractors in:

 Summer Turf Care Best Practices

 Smart Salting: Level 1
Snow & ice control best practices

Certified Turf Contractors

 Understand turf grass life cycle

 Know equipment maintenance best practices

 Learn best times to apply pesticides & fertilizer

So they should

 Apply least amount of chemicals needed for maintenance

Icon created by Sergey Patutin from Noun Project

 Use well-maintained, best available equipment

 Water appropriately

Saving you money & reducing your environmental impact!

Certified Salt Applicators

Understand freeze/thaw chemistry

Know equipment maintenance best practices

Learn best times to shovel or use sand or salt & how to be most effective using those techniques

So they should

Have a snow/ice removal policy

Shovel/plow first then use sand for traction

Use well-maintained, best available equipment

Apply least amount of right chemical
